Subject index*

A

- Acetylcholinesterase intoxication, prophylaxis versus treatment of (Zeft et al.), 237
- nontoxic doses of, myocardial K⁺ loss after countershock and relation to ventricular arrhythmias after (Regan et al.), 367
- Acromegalic heart disease, III, metabolism of the heart in health and disease (Opie), 383
- Adrenergic, beta-, blocking agent l-isopropylamino-3-(3-tolyloxy)-2-propanol, antiarrhythmic activity of (Somani), 63
- new, alprenolol, to control persistent ventricular ectopic beats (Anthony, Jick, and Spodick), 598
- receptor antagonists, combined effect of, on left ventricular function and coronary blood flow (Nayler et al.), 246
- receptors, evidence for different types of (Patch, 707 (Annot.))
- Age, race, sex, and nutritional state, bearing of, on precordial electrocardiograms of young South African Bantu and Caucasian subjects (Walker and Walker), 441
- Alcoholic heart disease, III, metabolism of the heart in health and disease (Opie), 386
- Alprenolol, new beta-adrenergic blocking agent, to control persistent ventricular ectopic beats (Anthony, Jick, and Spodick), 598
- Amino acids, source of, II, metabolism of the heart in health and disease (Opie), 100
- Aneurysm, dissecting, complicating Marfan's syndrome (arachnodactyly) in mother and son (Grondin, Steinberg, and Edwards), 301
- left ventricular, false, spontaneous rupture of, following myocardial infarction (Ersek et al.), 677
- Angina, Prinzmetal's variant, and second degree heart block (Gillilan, Hawley, and Warbasse), 380
- Angiographic features of case of parachute mitral valve (Simon, Friedman, and Roberts), 809
- Angiotensin, cardiovascular actions of, in man (Whelan, Scroop, and Walsh), 546
- Announcements, 576, 718
- Antiarrhythmic activity of beta-blocking agent l-isopropylamino-3-(3-tolyloxy)-2-propanol (Somani), 63
- Antibiotic prophylaxis in cardiac catheterization, evaluation of (Clark), 767
- Anticoagulant(s) in renal disease (Kincaid-Smith), 840 (Annot.)
- therapy, indications for (Lyon and DeGraff), 132
- practical management of (Wright), 280
- Antihypertensive drug, new, 2-(2,6-dichlorophenylamino)-2-imidazoline hydrochloride, clinical observations on (Smet et al.), 473
- Aorta, coarctation of, congenital mitral valve disease associated with (Easthope et al.), 743
- and heart, errors occurring between; counter pressure difficulty, I, quantitative studies on errors of the pulse, when used to estimate cardiac function (Starr), 222
- pseudocoarctation of (Young et al.), 259
- Aortic pressure loading in dogs with myocardial infarction (Hood, McCarthy, and Lown), 55
- regurgitation, mild, value of squatting in diagnosis of (Vogelpoel et al.), 709 (Annot.)
- valve, prosthetic, replacement, cardiac function following (Hultgren, Hubis, and Shumway), 585
- Arachnodactyly (Marfan's syndrome), dissecting aneurysm complicating, in mother and son (Grondin, Steinberg, and Edwards), 301
- Arrhythmias, cardiac, diphenylhydantoin (Dilantin) in treatment and prevention of (Helfant et al.), 315
- digitalis-induced, use of phentolamine in (Ettinger et al.), 636
- induced by pacemaking on demand (Spritzer et al.), 619
- supraventricular, incidence and management of, after acute myocardial infarction (Jewitt et al.), 290 (Annot.)
- ventricular, related to myocardial K⁺ loss after countershock, after nontoxic doses of acetylcholinesterase (Regan et al.), 367
- Arterial catheter, experimental partial occlusive device for vessels delivered by (Johnsrude and Goodrich), 805
- occlusive disease, indications for anticoagulant therapy (Lyon and DeGraff), 132
- supply and morphology of papillary muscles of left ventricle of man (Ranganathan and Burch), 506
- Arteriosclerotic heart disease, constrictive pericarditis, and primary myocardial disease, left atrial "a" waves in (Gould), 430 (Annot.)
- hemodynamic effects of increasing heart rate in patients with (Collins et al.), 466
- Arteriosus, truncus, persistent, in infancy; a study of 14 cases (Victorica et al.), 13
- Artery, coronary, disease, dilemma of surgery in treatment of (Zimmerman), 577
- indications for anticoagulant therapy (Lyon and DeGraff), 132
- and major conduction disturbances (Harper et al.), 411
- or myocardial hypertrophy, patients with, effects of sublingual nitroglycerin on myocardial blood flow in (Carson et al.), 579
- second heart sound in; phonocardiographic assessment (Caulfield, Smith, and Franklin), 187
- Atherosclerosis, experimental, prevention of, with pyridinolcarbamate (Wu, Huang, and Hsu), 657
- Atrial contraction and mitral valve mechanics, influence of, on ventricular filling (Nolan et al.), 784
- fibrillation and aberrant conduction, patients with, unusual occurrence of nonaberrant conduction in (Wellens), 158
- chronic, conversion of, to sinus rhythm with combined propranolol and quinidine

*January, pp. 1-152; February, pp. 153-294; March, pp. 295-436; April, pp. 437-576; May, pp. 577-718; June, pp. 719-866.

Atrial fibrillation—Cont'd

- treatment (Hillestad and Storstein), 137 (Annot.)
- and digitalis toxicity (Friedberg), 429 (Annot.)
- left, "a" waves in primary myocardial disease, constrictive pericarditis, and arteriosclerotic heart disease (Gould), 430 (Annot.)
- right, and right ventricular single and paired pacing in canine heart, comparison of (Kelly), 206
- Atropine and β -adrenergic receptor antagonists, combined effect of, on left ventricular function and coronary blood flow (Nayler et al.), 246
- Auscultatory, pressure, and flow phenomena in late systole (Reid), 710 (Annot.)
- Austin Flint murmur, hemodynamic and phonocardiographic correlates of (O'Brien and Cohen), 603
- A-V heart block, experimental, dogs with, effect of protokylol on ventricular rate in (Scriabine et al.), 649
- "a" waves, left atrial, in primary myocardial disease, constrictive pericarditis, and arteriosclerotic heart disease (Gould), 430 (Annot.)
- Axis deviation, left, and right bundle branch block, combined, in human electrocardiograms, character, cause, and consequence of (Watt and Pruitt), 460

B

- Bantu, South African, and Caucasian subjects, precordial electrocardiograms of, bearing of race, sex, age, and nutritional state on (Walker and Walker), 441
- Bed rest, diet, nursing, and environment (Burch and Ansari), 1
- Beriberi heart disease, III, metabolism of heart in health and disease (Opie), 383
- Beta-adrenergic blocking agent 1-isopropylamino-3-(3-tolyloxy)-2-propanol, antiarrhythmic activity of (Somani), 63
 - new, alprenolol, to control persistent ventricular ectopic beats (Anthony, Jick, and Spodick), 598
 - receptor antagonists, combined effect of, on left ventricular function and coronary blood flow (Nayler et al.), 246
 - evidence for different types of (Paton), 707 (Annot.)
- Bethanidine and guanethidine in management of hypertension (Moser), 423
- Block, bundle branch, right, concealed, in presence of Type B ventricular pre-excitation (Gersony and Ekery), 668
 - and left axis deviation, combined, in human electrocardiograms, character, cause, and consequence of (Watt and Pruitt), 460
- heart, A-V, experimental, dogs with, effects of protokylol on ventricular rate in (Scriabine et al.), 649
 - second degree, occurring in patient with Prinzmetal's variant angina (Gillilan, Hawley, and Warbasse), 380
- Blocking agent, beta-adrenergic, 1-isopropylamino-3-(3-tolyloxy)-2-propanol, antiarrhythmic activity of (Somani), 63
 - new, alprenolol, to control persistent ventricular ectopic beats (Anthony, Jick, and Spodick), 598

- Blood flow, collateral, measurement of, after myocardial infarction in closed-chest dog (Haft and Damato), 641
 - coronary, and left ventricular function, combined effect of atropine and beta-adrenergic receptor antagonists on (Nayler et al.), 246
 - myocardial, effects of sublingual nitroglycerin on, in patient with coronary artery disease or myocardial hypertrophy (Carson et al.), 579
 - right coronary, in acute pulmonary embolism (Stein et al.), 356
 - rheology in pathogenesis of coronary heart disease (Dintenfass), 139 (Annot.)
- Book reviews, 151, 294, 436, 574, 716, 847
- Branch block, bundle, right, concealed, in presence of Type B ventricular pre-excitation (Gersony and Ekery), 668
 - and left axis deviation, combined, in human electrocardiograms, character, cause, and consequence of (Watt and Pruitt), 460
- Bundle branch block, right, concealed, in presence of Type B ventricular pre-excitation (Gersony and Ekery), 668
 - and left axis deviation, combined, in human electrocardiograms, character, cause, and consequence of (Watt and Pruitt), 460

C

- Candida endocarditis, tricuspid, complicating permanently implanted transvenous pacemaker (Davis, Moss, and Schenk), 818
- Canine heart, right atrial and right ventricular single paired pacing in, comparison of (Kelly), 206
 - hemodynamic effects of paired pacing of the myocardium in reversible acute heart failure in (Kelly), 81
- Carcinoid heart disease, III, metabolism of the heart in health and disease (Opie), 383
- Cardiac arrhythmias, diphenylhydantoin (Dilantin) in treatment and prevention of (Helfant et al.), 315
- catheterization, antibiotic prophylaxis in, evaluation of (Clark), 767
- defibrillators, DC, comparative evaluation of (Balagot and Bandelin), 489
- function estimated by errors of the pulse, quantitative studies on, I, errors occurring between heart and aorta; the counted pressure difficulty (Starr), 222
 - II, errors occurring during pulse transmission, with estimate of the total error (Starr), 231
 - following prosthetic aortic valve replacement (Hultgren, Hubis, and Shumway), 585
- necrosis, experimental, effect of various diuretics upon (Selye), 653
- output, direct read-out of, by means of fiberoptic indicator dilution method (Hugenoltz et al.), 178
 - effect of transbrachial retrograde left heart catheterization upon (Linhart et al.), 287 (Annot.)
 - studies in tiny subjects, modified dye dilution technique for (Arcilla and Rowe), 798
- pacing, transvenous, bedside (Rosenberg et al.), 697
- tamponade during cardiac catheterization (Morrow, Reis, and Ross), 167

- Cardiologist, nurse, and nursing (Burch and Ansari), 288 (Annot.)
 Cardiomegaly, isoproterenol-induced, in rats (Stanton, Brenner, and Mayfield), 72
 Cardiomyopathy, hereditary: a new disease model (Bajusz), 686
 idiopathic, immunologic findings in (Camp et al.), 610
 restrictive, as presenting feature of reticulum cell sarcoma (Kaplan and Cohen), 307
 Cardiopulmonary resuscitation, "closed chest," hazardous complications of (Fletcher), 431 (Annot.)
 Cardiovascular actions of angiotensin in man (Whelan, Scroop, and Walsh), 546
 Catapres (See under 2-(2,6-dichlorophenylamine)-2-imidazole hydrochloride)
 Catecholamines, II, metabolism of the heart in health and disease (Opie), 100
 Catheter, arterial, experimental partial occlusive device for vessels delivered by (Johnsrude and Goodrich), 805
 pacemaker, transvenous, unusual site of ventricular pacing occurring during use of (Spitzberg, Milstoc, and Wertheim), 529
 Catheterization, cardiac, antibiotic prophylaxis in, evaluation of (Clark), 767
 with cardiac tamponade (Morrow, Reis, and Ross), 167
 transbrachial retrograde left heart, effect of, upon cardiac output (Linhart et al.), 287 (Annot.)
 transseptal with aid of dilating catheter (Neal), 569 (Annot.)
 Chemoreceptor regulation of heart rate, peripheral (Thulesius), 844 (Annot.)
 Childhood, fatal acute rheumatic fever in, despite corticosteroid therapy (Glancy, Massumi, and Roberts), 534
 Chlorpromazine, mepheridine, and promethazine, effects of, on pulmonary and systemic circulation (Goldberg et al.), 214
 Chylomicron and lipoprotein triglyceride, metabolism of, by the heart (Opie), 100
 Cineangiographic, serial, study: natural history of experimental coronary occlusion in pigs (Kong et al.), 45
 Circulation, pulmonary and systemic, effects of mepheridine, promethazine, and chlorpromazine on (Goldberg et al.), 214
 Climate, prescribing (Burch and Ansari), 149 (Annot.)
 Clinical pathological conference (Harris, Heath, and Davison), 267
 (Krakower, Friedman, and Harvey), 822
 (Rao et al.), 538
 "Closed chest" cardiopulmonary resuscitation, hazardous complications of (Fletcher), 431 (Annot.)
 dog, measurement of collateral blood flow after myocardial infarction in (Haft and Damato), 641
 Closure, surgical, of ventricular septal defect, conduction disturbances before and after (Kulbertus, Coyne, and Hallidie-Smith), 123
 Coarctation of aorta associated with congenital mitral valve disease (Easthope et al.), 743
 Collateral blood flow, measurement of, after myocardial infarction in closed-chest dog (Haft and Damato), 641
 Conducting model, nonhomogenous, changes in body's QRS surface potentials produced
 Conducting—Cont'd
 by alterations in certain compartments of (Bayley, Kalbfleisch, and Berry), 517
 system, excitation-contraction coupling and cardiac contraction, II, metabolism of the heart in health and disease (Opie), 100
 Conduction disturbances before and after surgical closure of ventricular septal defect (Kulbertus, Coyne, and Hallidie-Smith), 123
 and coronary artery disease (Harper et al.), 411
 nonaberrant, unusual occurrence of, in patients with atrial fibrillation and aberrant conduction (Wellens), 158
 Congenital mitral valve disease associated with coarctation of the aorta (Easthope et al.), 743
 Congestive heart failure, III, metabolism of the heart in health and disease (Opie), 383
 Constrictive pericarditis, arteriosclerotic heart disease and primary myocardial disease, left atrial "a" waves in (Gould), 430 (Annot.)
 symptomatic, developing 45 years after radiation to the mediastinum (Haas), 89
 Contraceptives, oral, and thromboembolic disease (Vessey), 153
 Contractility, myocardial, in man, evaluation of (Hermann, Singh, and Dammann), 755
 Contraction, atrial, and mitral valve mechanics, influence of, on ventricular filling (Nolan et al.), 784
 Coronary artery disease, dilemma of surgery in treatment of (Zimmerman), 577
 indications for anticoagulant therapy (Lyon and DeGraff), 132
 and major conduction disturbances (Harper et al.), 411
 or myocardial hypertrophy, patients with, effects of sublingual nitroglycerin on myocardial blood flow in (Carson et al.), 579
 second heart sound in; phonocardiographic assessment (Caulfield, Smith, and Franklin), 187
 blood flow and left ventricular function, combined effect of atropine and beta-adrenergic receptor antagonists on (Nayler et al.), 246
 care therapy, use of morphine (Hershberg), 289 (Annot.)
 flow, hemodynamic alterations, and myocardial metabolism in experimental acute myocardial infarction with shock, effects of isoproterenol on (Kuhn et al.), 772
 heart disease, blood rheology in pathogenesis of (Dintenfass), 139 (Annot.)
 occlusion, experimental, in pigs, natural history of: a serial cineangiographic study (Kong et al.), 45
 right, blood flow in acute pulmonary embolism (Stein et al.), 356
 sinus stimulation and myocardial tunneling; unusual QRS complexes produced by pacemaker stimuli (Castellanos et al.), 732
 Corticosteroid therapy, fatal acute rheumatic fever in childhood despite (Glancy, Massumi, and Roberts), 534
 Counter pressure difficulty; errors occurring between heart and aorta, I, quantitative studies on errors of the pulse, when used to estimate cardiac function (Starr), 222

Countershock, myocardial K⁺ loss after, and relation to ventricular arrhythmias after nontoxic doses of acetyl strophanthidin (Regan et al.), 367

Coxsackie viruses and the heart (Grist and Bell), 295

D

DC cardiac defibrillators, comparative evaluation of (Balagot and Bandelin), 489

Defibrillators, DC cardiac, comparative evaluation of (Balagot and Bandelin), 489

Demand, arrhythmias induced by pacemaking on (Spritzer et al.), 619

Diabetes mellitus, III, metabolism of the heart in health and disease (Opie), 383

2-(2,6-dichlorophenylamine)-2-imidazoline hydrochloride, new antihypertensive drug, clinical observations on (Smet et al.), 473

Diet, bed rest, nursing, and environment (Burch and Ansari), 1

Digitalis and experimental myocardial infarction (Morris et al.), 342

induced arrhythmias, use of phentolamine in (Ettinger et al.), 636

inotropic and dromotropic effects of, relationship between: modulation of these effects by autonomic influences (Ogden, Selzer, and Cohn), 628

toxicity and atrial fibrillation (Friedberg), 429 (Annot.)

Dilantin (diphenylhydantoin) in treatment and prevention of cardiac arrhythmias (Hel-fant et al.), 315

Dilating catheter, transseptal catheterization with aid of (Neal), 569 (Annot.)

Dilution, dye, technique, modified, for cardiac output studies in tiny subjects (Arcilla and Rowe), 798

fiberoptic indicator, method used for direct read-out of cardiac output (Hugenholtz et al.), 178

Diphenylhydantoin (Dilantin) in treatment and prevention of cardiac arrhythmias (Hel-fant et al.), 315

plasma, concentration, method for estimation (Big-ger, Schmidt, and Kutt), 572 (Annot.)

Dipole representation, variable location, from body surface leads, computation of (Helm and Chou), 363

Diuretics, effect of, upon experimental cardiac necrosis (Selye), 653

Dog(s), closed-chest, measurement of collateral blood flow after myocardial infarction in (Haft and Damato), 641

with experimental A-V heart block, effect of protokylol on ventricular rate in (Scria-bine et al.), 649

hearts, right atrial and right ventricular single and paired pacing in, comparison of (Kelly), 206

hemodynamic effects of paired pacing of the myo-cardium in reversible acute heart failure in (Kelly), 81

with myocardial infarction, aortic pressure load-ing in (Hood, McCarthy, and Lown), 55

newborn, cardiac output studies in, modified dye dilution technique for (Arcilla and Rowe), 798

Donor heart, how normal is the (DePasquale and Burch), 719

Drainage and pericardiostomy in management of cardiac tamponade during cardiac cath-eterization (Morrow, Reis, and Ross), 167

Dromotropic and inotropic effects of digitalis, re-lationship between: modulation of these effects by autonomic influences (Ogden, Selzer, and Cohn), 628

Dye dilution technique, modified, for cardiac output studies in tiny subjects (Arcilla and Rowe), 798

E

Ectopic beats, ventricular, persistent, control of, by alprenolol, new beta-adrenergic block-ing agent (Anthony, Jick, and Spodick), 598

Electrocardiogram(s) human, combined left axis deviation and right bundle branch block in, character, cause, and consequence of (Watt and Pruitt), 460

of normal subjects, effect of propranolol (Inderal) on (Stern and Eisenberg), 192

precordial, of young South African Bantu and Caucasian subjects, bearing of race, sex, age, and nutritional state on (Walker and Walker), 441

T-wave abnormalities in, use of oral potassium salts in assessment of: a clinical test (Schneider and Lyon), 721

Electrocardiographic ice water test (Kuaity, Wexler, and Simonson), 569 (Annot.)

and serum enzyme changes in subarachnoid hem-orrhage (Hunt, McRae, and Zapf), 479

and vectorcardiographic manifestations of in-creasing left ventricular pressure over-load (Postell et al.), 33

Electrocardiography, multipole theory applied to (Plonsey), 372

Electrode(s), pacemaker, chronically implanted, used for epicardial and endocardial stimulation of the human heart, com-parison of thresholds (Overdijk and Dekker), 172

transvenous pacemaker, incarceration of; re-moval by traction (Bilgutay et al.), 377

Embolism, pulmonary, acute, right coronary blood flow in (Stein et al.), 356

treatment of (DeGraff and Bucknam), 836

Embolization, peripheral arterial, indications for anticoagulant therapy (Lyon and De-Graff), 132

"Encephalopathy, hypertensive," accelerated hyper-tension, treatment of, I, (Moser), 566

II, (Moser), 704

Endocardial and epicardial stimulation of the human heart by chronically implanted pace-maker electrodes, comparison of thresh-olds in (Overdijk and Dekker), 172

Endocarditis, candida, tricuspid, complicating per-manently implanted transvenous pace-maker (Davis, Moss, and Schenk), 818

Environment, bed rest, diet, and nursing (Burch and Ansari), 1

Enzyme, serum, and electrocardiographic changes in subarachnoid hemorrhage (Hunt, McRae, and Zapf), 479

Epicardial and endocardial stimulation of the hu-man heart by chronically implanted pacemaker electrodes, comparison of thresholds in (Overdijk and Dekker), 172

Experimental coronary occlusion in pigs, natural history of: a serial cineangiographic study (Kong et al.), 45

F

Failure, heart, reversible acute, in the canine, paired pacing of the myocardium in, hemodynamic effects of (Kelly), 81

- Fiberoptic indicator dilution method used for direct read-out of cardiac output (Hugenhotz et al.), 178
- Fibrillation, atrial, and aberrant conduction, patients with, unusual occurrence of non-aberrant conduction in (Wellens), 158
- chronic, conversion of, to sinus rhythm with combined propranolol and quinidine treatment (Hillestad and Storstein), 137 (Annot.)
- digitalis toxicity (Friedberg), 429 (Annot.)
- ventricular, in acute myocardial infarction: prognosis following successful resuscitation (Stannard and Sloman), 573 (Annot.)
- Fibrosis, papillary muscle, in primary myocardial disease (Marcus et al.), 681
- Filling, ventricular, influence of atrial contraction and mitral valve mechanics on (Nolan et al.), 784
- Flint, Austin, murmur, hemodynamic and phonocardiographic correlates of (O'Brien and Cohen), 603
- Flow, auscultatory, and pressure phenomena in late systole (Reid), 710 (Annot.)
- blood, collateral, measurement of, after myocardial infarction in closed-chest dog (Haft and Damato), 641
- myocardial, effects of sublingual nitroglycerin on, in patients with coronary artery disease or myocardial hypertrophy (Carson et al.), 579
- Frequency characteristics of some pressure transducer systems (Cronvich and Burch), 792
- G**
- Glucose-potassium-insulin (Arnott), 845 (Annot.)
- Guanethidine and bethanidine in management of hypertension (Moser), 423
- H**
- Heart and aorta, errors occurring between; counter pressure difficulty, I, quantitative studies on errors of the pulse, when used to estimate cardiac function (Starr), 222
- block, A-V, experimental, dogs with, effect of protokylol on ventricular rate in (Scriabine et al.), 649
- second degree, occurring in patient with Prinzmetal's variant angina (Gillilan; Hawley, and Warbasse), 380
- and Coxsackie viruses (Grist and Bell), 295
- disease, arteriosclerotic, constrictive pericarditis, and primary myocardial disease, left atrial "a" waves in (Gould), 430 (Annot.)
- coronary, blood rheology in pathogenesis of (Dintenfass), 139 (Annot.)
- donor, how normal is the (DePasquale and Burch), 719
- failure, reversible acute, in canine, paired pacing of myocardium in, hemodynamic effects of (Kelly), 81
- as generator of QRS and ST-T deflections, differences in (Fruehan et al.), 842 (Annot.)
- in heatstroke (Kew et al.), 324
- human, epicardial and endocardial stimulation of, by chronically implanted pacemaker electrodes, comparison of thresholds in (Overdijk and Dekker), 172
- left, catheterization, transbrachial retrograde, effect of, upon cardiac output (Linhart et al.), 287 (Annot.)
- metabolism of, in health and disease, II (Opie), 100
- III (Opie), 383
- Heart—Cont'd
- rate, increasing, hemodynamic effects of, in patients with arteriosclerotic heart disease (Collins et al.), 466
- peripheral chemoreceptor regulation of (Thulesius), 844 (Annot.)
- sound, second, in coronary artery disease; phonocardiographic assessment (Caulfield, Smith, and Franklin), 187
- transplantation of (Goodwin and Oakley), 437
- transplanted, function of, speculation on (Linden), 830
- Heatstroke and the heart (Kew et al.), 324
- Hemodynamic alterations, myocardial metabolism, and coronary flow in experimental acute myocardial infarction with shock, effects of isoproterenol on (Kuhn et al.), 772
- effects of increasing the heart rate in patients with arteriosclerotic heart disease (Collins et al.), 466
- paired pacing of the myocardium in reversible acute heart failure in canine (Kelly), 81
- and phonocardiographic correlates of Austin Flint murmur (O'Brien and Cohen), 603
- Hemorrhage, intracranial, experimental, effects of, on ultrastructure of myocardium of mice (Burch et al.), 427 (Annot.)
- subarachnoid, electrocardiographic and serum enzyme changes in (Hunt, McRae, and Zapf), 479
- Hereditary cardiomyopathy: a new disease model, (Bajusz), 686
- Histology of papillary muscles of left ventricle in myocardial infarction (Brand, Brown, and Berge), 26
- Hypertension, accelerated, "hypertensive encephalopathy," treatment of, I, (Moser), 566
- II, (Moser), 704
- guanethidine and bethanidine in management of (Moser), 423
- (See also antihypertensive drug)
- Hypertrophic obstruction, isolated, to right ventricular outflow (Morrow, Fisher, and Fogarty), 814
- Hypertrophy, myocardial, or coronary artery disease, patients with, effects of sublingual nitroglycerin on myocardial blood flow in (Carson et al.), 579
- Hypoxia, effects of, on vascular response to isoproterenol and norepinephrine (Zsoter), 498
- I**
- Ice water test, electrocardiographic (Kuaity, Wexler, and Simonson), 569 (Annot.)
- Idiopathic cardiomyopathy, immunologic findings in (Camp et al.), 610
- Immunologic findings in idiopathic cardiomyopathy (Camp et al.), 610
- Inderal (propranolol), effect of, on electrocardiogram of normal subjects (Stern and Eisenberg), 192
- Indicator, fiberoptic, dilution method used for direct read-out of cardiac output (Hugenholtz et al.), 178
- Infancy, early, normal maturation of spatial QRS curve characteristics in (Ainger and Skinner), 5
- persistent truncus arteriosus in; a study of 14 cases (Victorica et al.), 13
- Infarction, myocardial, acute, experimental, with shock, effects of isoproterenol on hemodynamic alterations, myocardial metab-

Infarction—Cont'd

- olism, and coronary flow in (Kuhn et al.), 772
- serial P-wave changes in (Grossman and Delman), 336
- ventricular fibrillation in: prognosis following successful resuscitation (Stannard and Sloman), 573 (Annot.)
- dogs with, aortic pressure loading in (Hood, McCarthy, and Lown), 55
- experimental, and digitalis (Morris et al.), 342
- histology of papillary muscles of left ventricle in (Brand, Brown, and Berge), 26
- incidence and management of supraventricular arrhythmias after (Jewitt et al.), 290 (Annot.)
- measurement of collateral blood flow after, in closed-chest dog (Haft and Damato), 641
- spontaneous rupture of false left ventricular aneurysm following (Ersek et al.), 677
- Inotropic and dromotropic effects of digitalis, relationship between: modulation of these effects by autonomic influences (Ogden, Selzer, and Cohen), 628
- Insufficiency, mitral, apparent pure, abnormal valve motion as demonstrated by ultrasound technique in (Winters, Hafer, and Soloff), 196
- Insulin, effect of, II, metabolism of heart in health and disease (Opie), 100
- glucose-potassium (Arnott), 845 (Annot.)
- Interesting historical letters, 434
- Intoxication, acetylthiocholine, prophylaxis versus treatment of (Zeft et al.), 237
- digitalis, and atrial fibrillation (Friedberg), 429 (Annot.)
- Intracranial hemorrhage, experimental, effects of, on ultrastructure of myocardium of mice (Burch et al.), 427 (Annot.)
- Isoproterenol, effects of, on hemodynamic alterations, myocardial metabolism, and coronary flow in experimental acute myocardial infarction with shock (Kuhn et al.), 772
- induced cardiomegaly in rats (Stanton, Brenner, and Mayfield), 72
- and norepinephrine, vascular response to, effect of hypoxia on (Zsotér), 498

L

- Leads, body surface, computation of variable location dipole representation from (Helm and Chou), 363
- Left atrial "a" waves in primary myocardial disease, constrictive pericarditis, and arteriosclerotic heart disease (Gould), 430 (Annot.)
- axis deviation and right bundle branch block, combined, in human electrocardiograms, character, cause, and consequence of (Watt and Pruitt), 460
- heart catheterization, transbrachial retrograde, effect of, upon cardiac output (Linhart et al.), 287 (Annot.)
- ventricle, histology of papillary muscles of, in myocardial infarction (Brand, Brown, and Berge), 26
- papillary muscles of, morphology and arterial supply of, in man (Ranganathan and Burch), 506
- ventricular aneurysm, false, spontaneous rupture of, following myocardial infarction (Ersek et al.), 677
- function and coronary blood flow, combined effect of atropine and beta-adrenergic

Left ventricular aneurysm—Cont'd

- receptor antagonists on (Nayler et al.), 246
- pressure overload, increasing, electrocardiographic and vectorcardiographic manifestations of (Postell et al.), 33
- Letters to the Editor, 432, 713
- Lipogenesis and ketogenesis, II, metabolism of the heart in health and disease (Opie), 100
- Lipoprotein triglyceride and chylomicron, metabolism of, by heart (Opie), 100
- Loading pressure, aortic, in dogs with myocardial infarction (Hood, McCarthy, and Lown), 55

M

- Marfan's syndrome (arachnodactyly), dissecting aneurysm complicating, in mother and son (Grondin, Steinberg, and Edwards), 301
- and mitral valve disease: acute surgical emergencies (Simpson, Nora, and McNamara), 96
- Mediastinum, radiation therapy to, symptomatic constrictive pericarditis developing 45 years after (Haas), 89
- Merperidine, promethazine, and chlorpromazine, effects of, on pulmonary and systemic circulation (Goldberg et al.), 214
- Metabolism of the heart in health and disease, II (Opie), 100
- III (Opie), 383
- Mice, effects of experimental intracranial hemorrhage on ultrastructure of myocardium in (Burch et al.), 427 (Annot.)
- Mitochondrial metabolism, II, metabolism of heart in health and disease (Opie), 100
- Mitral stenosis, opening snap of, phenylephrine used to detect (Tavel, Frazier, and Fisch), 274
- valve disease, congenital, associated with coarctation of aorta (Easthope et al.), 743
- and Marfan's syndrome: acute surgical emergencies (Simpson, Nora, and McNamara), 96
- mechanics and atrial contraction, influence of, on ventricular filling (Nolan et al.), 784
- motion, abnormal, as demonstrated by ultrasound technique in apparent pure mitral insufficiency (Winters, Hafer, and Soloff), 196
- parachute, angiographic features of case of (Simon, Friedman, and Roberts), 809
- Morphine in coronary care therapy (Hershberg), 289 (Annot.)
- Morphology and arterial supply of papillary muscles of left ventricle of man (Ranganathan and Burch), 506
- Multipole theory applied to electrocardiography (Plonsey), 372
- Murmur, Austin Flint, hemodynamic and phonocardiographic correlates of (O'Brien and Cohen), 603
- Muscles, papillary, of left ventricle, histology of, in myocardial infarction (Brand, Brown, and Berge), 26
- of man, morphology and arterial supply of (Ranganathan and Burch), 506
- Myocardial blood flow, effects of sublingual nitroglycerin on, in patients with coronary artery disease or myocardial hypertrophy (Carson et al.), 579
- contractility in man, evaluation of (Hermann, Singh, and Dammann), 755

Myocardial—Cont'd

- disease, primary, constrictive pericarditis, and arteriosclerotic heart disease, left atrial "a" waves in (Gould), 430 (Annot.)
- papillary muscle fibrosis in (Marcus et al.), 681
- infarction, acute, serial P-wave changes in (Grossman and Delman), 336
- ventricular fibrillation in: prognosis following successful resuscitation (Stannard and Sloman), 573 (Annot.)
- dogs with, aortic pressure loading in (Hood, McCarthy, and Lown), 55
- experimental, and digitalis (Morris et al.), 342
- histology of papillary muscles of left ventricle in (Brand, Brown, and Berge), 26
- incidence and management of supraventricular arrhythmias after (Jewitt et al.), 290 (Annot.)
- measurement of collateral blood flow after, in closed-chest dog (Haft and Damato), 641
- III, metabolism of heart in health and disease (Opie), 383
- spontaneous rupture of false left ventricular aneurysm following (Ersek et al.), 677
- K⁺ loss after countershock and relation to ventricular arrhythmias after nontoxic doses of acetyl strophanthidin (Regan et al.), 367
- metabolism, hemodynamic alterations, and coronary flow in experimental acute myocardial infarction with shock, effects of isoproterenol on (Kuhn et al.), 772
- Myocardium, paired pacing of, in reversible acute heart failure in canine, hemodynamic effects of (Kelly), 81
- ultrastructure of, effects of experimental intracranial hemorrhage on, in mice (Burch et al.), 427 (Annot.)

N

- Necrosis, cardiac, experimental, effect of various diuretics upon (Selye), 653
- Nitroglycerin, sublingual, effects of, on myocardial blood flow in patients with coronary artery disease or myocardial hypertrophy (Carson et al.), 579
- Nonhomogeneous conducting model, changes in body's QRS surface potentials produced by alterations in certain compartments of (Bayley, Kalbfleisch, and Berry), 517
- Norepinephrine and isoproterenol, vascular response to, effect of hypoxia on (Zsotér), 498
- Nursing, bed rest, diet, and environment (Burch and Ansari), 1
- the nurse, and the cardiologist (Burch and Ansari), 288 (Annot.)
- Nutritional state, race, age, and sex, bearing of, on precordial electrocardiograms of young South African Bantu and Caucasian subjects (Walker and Walker), 441

O

- Obstruction, hypertrophic, isolated, to right ventricular outflow (Morrow, Fisher, and Fogarty), 814
- Occlusion, coronary, experimental, in pigs, natural history of: a serial cineangiographic study (Kong et al.), 45
- Occlusive device, partial, experimental, for vessels delivered by arterial catheter (Johnsrude and Goodrich), 805
- Oral contraceptives and thromboembolic disease (Vessey), 153
- Outflow, right ventricular, isolated hypertrophic obstruction to (Morrow, Fisher, and Fogarty), 814

- Output, cardiac, direct read-out of, by means of fiberoptic indicator dilution method (Hugenoltz et al.), 178
- effect of transbrachial retrograde left heart catheterization upon (Linhart et al.), 287 (Annot.)
- studies in tiny subjects, modified dye dilution technique for (Arcilla and Rowe), 798
- Overload, left ventricular pressure, increasing, vectorcardiographic and electrocardiographic manifestations of (Postell et al.), 33
- Oxidative metabolism, substrates for, II, metabolism of heart in health and disease (Opie), 100

P

- Pacemaker, catheter, transvenous, unusual site of ventricular pacing occurring during use of (Spitzberg, Milstoc, and Wertheim), 529
- electrode(s), chronically implanted, used for epicardial and endocardial stimulation of human heart, comparison of thresholds (Overdijk and Dekker), 172
- transvenous, incarceration of; removal by traction (Bilgutay et al.), 377
- stimuli, unusual QRS complexes produced by (Castellanos et al.), 732
- transvenous, permanently implanted, tricuspid candida endocarditis complicating (Davis, Moss, and Schenk), 818
- Pacemaking, arrhythmias induced by, on demand (Spritzer et al.), 619
- Pacing, paired, of myocardium in reversible acute heart failure in canine, hemodynamic effects of (Kelly), 81
- single and paired, right atrial and right ventricular, in canine heart, comparison of (Kelly), 206
- transvenous cardiac, bedside (Rosenberg et al.), 697
- Papillary muscle(s) fibrosis in primary myocardial disease (Marcus et al.), 677
- of left ventricle, histology of, in myocardial infarction (Brand, Brown, and Berge), 26
- of man, morphology and arterial supply of (Ranganathan and Burch), 506
- Parachute mitral valve, angiographic features of case of (Simon, Friedman, and Roberts), 809
- Pericarditis, constrictive, arteriosclerotic heart disease, and primary myocardial disease, left atrial "a" waves in (Gould), 430 (Annot.)
- symptomatic, developing 45 years after radiation therapy to mediastinum (Haas), 89
- Pericardiostomy and drainage in management of cardiac tamponade during cardiac catheterization (Morrow, Reis, and Ross), 167
- Peripheral chemoreceptor regulation of heart rate (Thulesius), 844 (Annot.)
- vascular disease, reflex vasodilatation in treatment of (Burch, Colcolough, and Miller), 707 (Annot.)
- Persistent truncus arteriosus in infancy; a study of 14 cases (Victorica et al.), 13
- Phentolamine: use in digitalis-induced arrhythmias (Ettinger et al.), 636
- Phenylephrine used to detect opening snap of mitral stenosis (Tavel, Frazier, and Fisch), 274
- Phonocardiographic assessment of second heart sound in coronary artery disease (Caulfield, Smith, and Franklin), 187

Phonocardiographic—Cont'd

- and hemodynamic correlates of Austin Flint murmur (O'Brien and Cohen), 603
- Pigs, natural history of experimental coronary occlusion in: a serial cineangiographic study (Kong et al.), 45
- Plasma diphenylhydantoin concentration, method for estimation of (Bigger, Schmidt, and Kutt), 572 (Annot.)
- Poisoning, acetylstrophanthidin, prophylaxis versus treatment (Zeft et al.), 237
- digitalis, and atrial fibrillation (Friedberg), 429 (Annot.)
- Potassium-glucose-insulin (Arnot), 845 (Annot.)
- (K⁺) loss, myocardial, after countershock and relation to ventricular arrhythmias after nontoxic doses of acetyl strophanthidin (Regan et al.), 367
- salts, oral, use of, in assessment of T-wave abnormalities in electrocardiogram: a clinical test (Schneider and Lyon), 721
- Precordial electrocardiograms of young South African Bantu and Caucasian subjects, bearing of race, sex, age, and nutritional state on (Walker and Walker), 441
- Pressure, auscultatory, and flow phenomena in late systole (Reid), 710 (Annot.)
- counter, difficulty; errors occurring between heart and aorta, I, quantitative studies on errors of pulse, when used to estimate cardiac function (Starr), 222
- loading, aortic, in dogs with myocardial infarction (Hood, McCarthy, and Lown), 55
- overload, left ventricular, increasing, vectorcardiographic and electrocardiographic manifestations of (Postell et al.), 33
- transducer systems, frequency characteristics of (Cronvich and Burch), 792
- Prinzmetal's variant angina and second degree heart block (Gillilan, Hawley, and Warbasse), 380
- Promethazine, merperidine, and chlorpromazine, effects of, on pulmonary and systemic circulation (Goldberg et al.), 214
- Prophylaxis, antibiotic, in cardiac catheterization, evaluation of (Clark), 767
- versus treatment of acetylstrophanthidin intoxication (Zeft et al.), 237
- Propranolol (Inderal), effect of, on electrocardiogram of normal subjects (Stern and Eisenberg), 192
- and quinidine treatment, combined, conversion of chronic atrial fibrillation to sinus rhythm with (Hillestad and Storstein), 137 (Annot.)
- Prosthetic aortic valve replacement, cardiac function following (Hultgren, Hubis, and Shumway), 585
- Protein synthesis, II, metabolism of heart in health and disease (Opie), 100
- Protokylol, effect of, on ventricular rate in dogs with experimental A-V heart block (Scriabine et al.), 649
- Pseudocoarctation of aorta (Young et al.), 259
- Pulmonary embolism, acute, right coronary blood flow in (Stein et al.), 356
- treatment of (DeGraff and Bucknam), 836
- and systemic circulation, effects of merperidine, promethazine, and chlorpromazine on (Goldberg et al.), 214
- Pulse, errors of, quantitative studies on, when used to estimate cardiac function; I, errors occurring between heart and aorta; the counter pressure difficulty (Starr), 222
- II, errors occurring during pulse trans-

Pulse—Cont'd

- mission, with estimate of total error (Starr), 231
- P-wave changes in acute myocardial infarction (Grossman and Delman), 336
- Pyridinolcarbamate, prevention of experimental atherosclerosis with (Wu, Huang, and Hsu), 657

Q

- QRS complexes, unusual, produced by pacemaker stimuli (Castellanos et al.), 732
- spatial curve characteristics, normal maturation of, in early infancy (Ainger and Skinner), 5
- and ST-T deflections, differences in heart as generator of (Fruehan et al.), 842 (Annot.)
- surface potentials, of the body, changes in, produced by alterations in certain compartments of nonhomogeneous conducting model (Bayley, Kalbfleisch, and Berry), 517
- Quinidine and propranolol treatment, combined, conversion of chronic atrial fibrillation to sinus rhythm with (Hillestad and Storstein), 137 (Annot.)

R

- Race, sex, age, and nutritional state, bearing of, on precordial electrocardiograms of young South African Bantu and Caucasian subjects (Walker and Walker), 441
- Radiation therapy to mediastinum, symptomatic constrictive pericarditis developing 45 years after (Haas), 89
- Rate, heart, increasing, hemodynamic effects of, in patients with arteriosclerotic heart disease (Collins et al.), 466
- peripheral chemoreceptor regulation of (Thulesius), 844 (Annot.)
- Rats, isoproterenol-induced cardiomegaly in (Stanton, Brenner, and Mayfield), 72
- Read-out, direct, of cardiac output by means of fiberoptic indicator dilution method (Hugenholtz et al.), 178
- Receptor(s) antagonists, beta-adrenergic, combined effect of, on left ventricular function and coronary blood flow (Nayler et al.), 246
- beta-adrenergic, evidence for different types of (Paton), 707 (Annot.)
- Regurgitation, aortic, mild, value of squatting in diagnosis of (Vogelpoel et al.), 709 (Annot.)
- Renal disease, anticoagulants in (Kincaid-Smith), 840 (Annot.)
- Rest, bed, diet, nursing, and environment (Burch and Ansari), 1
- Resuscitation, "closed chest" cardiopulmonary, hazardous complications of (Fletcher), 431 (Annot.)
- Reticulum cell sarcoma, restrictive cardiomyopathy as presenting feature of (Kaplan and Cohen), 307
- Rheology, blood, in pathogenesis of coronary heart diseases (Dintenfass), 139 (Annot.)
- Rheumatic fever, fatal acute, in childhood, despite corticosteroid therapy (Glancy, Masumi, and Roberts), 534
- Rhythm, sinus, chronic atrial fibrillation converted to, with combined propranolol and quinidine treatment (Hillestad and Storstein), 137 (Annot.)

- Right atrial and right ventricular single and paired pacing in canine heart, comparison of (Kelly), 206
- bundle branch block, concealed, in presence of Type B ventricular pre-excitation (Gersony and Ekery), 668
- and left axis deviation, combined, in human electrocardiograms, character, cause, and consequence of (Watt and Pruitt), 460
- coronary blood flow in acute pulmonary embolism (Stein et al.), 356
- ventricular outflow, isolated hypertrophic obstruction to (Morrow, Fisher, and Fogarty), 814

S

- Sarcoma, reticulum cell, restrictive cardiomyopathy as presenting feature of (Kaplan and Cohen), 307
- Second degree heart block occurring in patient with Prinzmetal's variant angina (Gillilan, Hawley, and Warbasse), 380
- heart sound in coronary artery disease; phonocardiographic assessment (Caulfield, Smith, and Franklin), 187
- Septal defect, ventricular, conduction disturbances before and after surgical closure of (Kulbertus, Coyne, and Hallidie-Smith), 123
- Serial cineangiographic study: natural history of experimental coronary occlusion in pigs (Kong et al.), 45
- Serum enzyme and electrocardiographic changes in subarachnoid hemorrhage (Hunt, McRae, and Zapf), 479
- Sex, race, age, and nutritional state, bearing of, on precordial electrocardiograms of young South African Bantu and Caucasian subjects (Walker and Walker), 441
- Shock with experimental acute myocardial infarction, effects of isoproterenol on hemodynamic alterations, myocardial metabolism, and coronary flow in (Kuhn et al.), 772
- Sinus rhythm, chronic atrial fibrillation converted to, with combined propranolol and quinidine treatment (Hillestad and Storstein), 137 (Annot.)
- Sound, heart, second, in coronary artery disease; phonocardiographic assessment (Caulfield, Smith, and Franklin), 187
- Spatial QRS curve characteristics, normal maturation of, in early infancy (Ainger and Skinner), 5
- Spaygmomanometry, recommendations for; a dissenting opinion (King), 147 (Annot.)
- Squatting, value of, in diagnosis of mild aortic regurgitation (Vogelpoel et al.), 709 (Annot.)
- Stenosis, mitral, opening snap of, phenylephrine used to detect (Tavel, Frazier, and Fisch), 274
- Strophanthidin, acetyl, nontoxic doses of, myocardial K⁺ loss after countershock and relation to ventricular arrhythmias after (Regan et al.), 367
- ST-T and QRS deflections, differences in heart as generator of (Fruehan et al.), 842 (Annot.)
- Subarachnoid hemorrhage, electrocardiographic and serum enzyme changes in (Hunt, McRae, and Zapf), 479
- Sublingual nitroglycerin, effects of, on myocardial blood flow in patients with coronary artery disease or myocardial hypertrophy (Carson et al.), 579
- Substrates for oxidative metabolism, II, metabolism of heart in health and disease (Opie), 100
- Supraventricular arrhythmias, incidence and management of, after acute myocardial infarction (Jewitt et al.), 290 (Annot.)
- Surface potentials, QRS, of the body, changes in, produced by alterations in certain compartments of nonhomogeneous conducting model (Bayley, Kalbfleisch, and Berry), 517
- Surgery, dilemma of, in treatment of coronary artery disease (Zimmerman), 577
- Surgical closure of ventricular septal defect, conduction disturbances before and after (Kulbertus, Coyne, and Hallidie-Smith), 123
- emergencies, acute: Marfan's syndrome and mitral valve disease (Simpson, Nora, and McNamara), 96
- Symptomatic constrictive pericarditis developing 45 years after radiation therapy to mediastinum (Haas), 89
- Syndrome, Marfan's (arachnodactyly), dissecting aneurysm complicating, in mother and son (Gronidin, Steinberg, and Edwards), 301
- and mitral valve disease: acute surgical emergencies (Simpson, Nora, and McNamara), 96
- Systemic and pulmonary circulation, effects of merperidine, promethazine, and chlorpromazine on (Goldberg et al.), 214
- Systole, late, auscultatory pressure, and flow phenomena in (Reid), 710 (Annot.)

T

- Tamponade, cardiac, during cardiac catheterization (Morrow, Reis, and Ross), 167
- Test, electrocardiographic ice water (Kuaity, Wexler, and Simonson), 571 (Annot.)
- Thromboembolic disease and oral contraceptives (Vessey), 153
- Thromboembolism, venous, indications for anticoagulant therapy in (Lyon and DeGraff), 132
- Thyrotoxic heart disease, III, metabolism of heart in health and disease (Opie), 383
- Toxicity, digitalis, and atrial fibrillation (Friedberg), 429 (Annot.)
- Traction used to remove incarcerated transvenous pacemaker electrode (Bilgutay et al.), 377
- Transbrachial retrograde left heart catheterization, effect of, upon cardiac output (Linhart et al.), 287 (Annot.)
- Transducer systems, pressure, frequency characteristics of (Cronvich and Burch), 792
- Transplantation of the heart (Goodwin and Oakley), 437
- Transplanted heart, speculation on function of (Linden), 830
- Transseptal catheterization with aid of dilating catheter (Neal), 569 (Annot.)
- Transvenous cardiac pacing, bedside (Rosenberg et al.), 697
- catheter pacemaker, unusual site of ventricular pacing occurring during use of (Spitzberg, Milstoc, and Wertheim), 529
- pacemaker electrode, incarceration of; removal by traction (Bilgutay et al.), 377

Transvenous pacemaker electrode—Cont'd

- permanently implanted, tricuspid candida endocarditis complicating (Davis, Moss, and Schenk), 818
- Tricuspid candida endocarditis complicating permanently implanted transvenous pacemaker (Davis, Moss, and Schenk), 818
- Triglyceride, lipoprotein, and chylomicron, metabolism of, by heart (Opie), 100
- Truncus arteriosus, persistent, in infancy; a study of 14 cases (Victorica et al.), 13
- T-wave abnormalities in electrocardiogram, use of oral potassium salts in assessment of; a clinical test (Schneider and Lyon), 721

U

- Ultrasound technique used to demonstrate abnormal mitral valve motion in apparent pure mitral insufficiency (Winters, Hafer, and Soloff), 196
- Ultrastructure of myocardium of mice, effects of experimental intracranial hemorrhage on (Burch et al.), 427 (Annot.)

V

- Valve, aortic, prosthetic, replacement, cardiac function following (Hultgren, Hubis, and Shumway), 585
- mitral, disease, congenital, associated with coarctation of aorta (Easthope et al.), 743
- and Marfan's syndrome: acute surgical emergencies (Simpson, Nora, and McNamara), 96
- mechanics, and atrial contraction, influence of, on ventricular filling (Nolan et al.), 784
- motion, abnormal, as demonstrated by ultrasound technique in apparent pure mitral insufficiency (Winters, Hafer, and Soloff), 196
- parachute, angiographic features of case of (Simon, Friedman, and Roberts), 809
- Vascular disease, peripheral, reflex vasodilatation in treatment of (Burch, Colcolough, and Miller), 707 (Annot.)
- response to isoproterenol and norepinephrine, effect of hypoxia on (Zsoter), 498
- Vasodilatation, reflex, in treatment of peripheral vascular disease (Burch, Colcolough, and Miller), 707 (Annot.)
- Vectorcardiographic and electrocardiographic manifestations of increasing left ventricular pressure overload (Postell et al.), 33
- Venous thromboembolism, indications for anticoagulant therapy (Lyon and DeGraff), 132
- Ventricle, left, histology of papillary muscles of, in myocardial infarction (Brand, Brown, and Berge), 26

Ventricle—Cont'd

- papillary muscles of, morphology and arterial supply of, in man (Burch and Ranganaathan), 506
 - Ventricular aneurysm, left, false, spontaneous rupture of, following myocardial infarction (Ersek et al.), 677
 - arrhythmias, related to myocardial K⁺ loss after countershock, after nontoxic doses of acetyl strophanthidin (Regan et al.), 367
 - ectopic beats, persistent, control of, by alprenolol, new beta-adrenergic blocking agent (Anthony, Jick, and Spodick), 598
 - fibrillation in acute myocardial infarction: prognosis following successful resuscitation (Stannard and Sloman), 573 (Annot.)
 - filling, influence of atrial contraction and mitral valve mechanics on (Nolan et al.), 784
 - left, function and coronary blood flow, combined effect of atropine and beta-adrenergic receptor antagonists on (Naylor et al.), 246
 - outflow, right, isolated hypertrophic obstruction to (Morrow, Fisher, and Fogarty), 814
 - pacing, unusual site of, occurring during use of transvenous catheter pacemaker (Spitzberg, Milstoc, and Wertheim), 529
 - pre-excitation, Type B, concealed right bundle branch block in presence of (Gersony and Ekery), 668
 - pressure overload, left, increasing, vectorcardiographic and electrocardiographic manifestations of (Postell et al.), 33
 - rate, effect of protokylol on, in dogs with experimental A-V heart block (Scriabine et al.), 649
 - right, and right atrial single and paired pacing in canine heart, comparison of (Kelly), 206
 - septal defect, conduction disturbances before and after surgical closure of (Kulbertus, Coyne, and Hallidie-Smith), 123
 - Viruses, Coxsackie, and the heart (Grist and Bell), 295
- W
- Wave(s), "a," left atrial, in primary myocardial disease, constrictive pericarditis, and arteriosclerotic heart disease (Gould), 430 (Annot.)
 - P-, changes in acute myocardial infarction (Grossman and Delman), 336
 - T-, abnormalities in electrocardiogram, use of oral potassium salts in assessment of: a clinical test (Schneider and Lyon), 721
 - transmission, pulse, errors occurring during, with estimate of total error, II, quantitative studies on errors of pulse, when used to estimate cardiac function (Starr), 231
 - Wolff-Parkinson-White syndrome Type B ventricular pre-excitation, concealed right bundle branch block in presence of (Gersony and Ekery), 668

American Heart Journal

An international publication for the study of the circulation

GEORGE E. BURCH, M.D.

Editor

HARRY L. COLCOLOUGH, M.D.

NICHOLAS P. DePASQUALE, M.D.

JOHN H. PHILLIPS, M.D.

Assistant editors

1430 Tulane Avenue, New Orleans, La. 70112

Subject index*

A

- Abdominal aortic coarctation, crural hypertension in (Annamalai and Shreekumar), 541
- Acetazolamide, effects of, on cerebral blood flow of dogs during hyperbaric oxygenation (Kong et al.), 229
- Acetyl strophanthidin, cardiovascular response of hypoxic myocardium to (Donlon and Yu), 238
- Age. (See under elderly and young.)
- Aged, myocardial function in, phonocardiographic assessment of (Friedman and Davison), 752
- Agranulocytosis following procainamide administration (Wang and Schuller), 282 (Annot.)
- Alcohol, cigarettes, hospitals, and atherogenesis (Sackett), 423 (Annot.)
- ethyl, hemodynamic effects of, in man (Juchems and Klobe), 133 (Annot.)
- Amiloride, use of, in potassium depletion before cardiac surgery (Singh, Hurley, and North), 22
- Anesthesia, urethane, prolonged, hemodynamic alterations produced by, in the intact dog (Giles, Quiroz, and Burch), 281 (Annot.)
- Aneurysm, dissecting, familial, complicating Marfan's syndrome (Young), 577 (Annot.)
- idiopathic mitral subannular left ventricular, in the Bantu (Beck and Schrire), 28
- Angiocardiography, left ventricular wall thickness determined by (Hugenholtz, Kaplan, and Hull), 513
- Angiosarcoma, primary, of heart, treatment of (Hollingsworth and Sturgill), 254
- Announcements, 144, 288, 848
- Anxiety, detection and treatment of, in the coronary care unit (Hackett, Cassem, and Wishnie), 727
- Aorta, thoracic, acute dissections of, management of (Harris, Bowman, and Malm), 419
- Aortic coarctation, abdominal, crural hypertension in (Annamalai and Shreekumar), 541
- flow velocity in man during cardiac arrhythmias measured with the Doppler catheter-flowmeter system (Benchimol et al.), 649
- stenosis, congenital, sudden death in (Glew et al.), 615
- Apnea, posthyperventilation, and criteria of brain damage and death (Brandfonbrener, Kroll, and Borden), 573 (Annot.)
- Arrest, cardiac, patients resuscitated after, long-term prognosis for (Dupont, Flensted-Jensen, and Sandøe), 444
- Arrhythmia(s), cardiac, aortic flow velocity in man during, measured with the Doppler catheter-flowmeter system (Benchimol et al.), 649
- treatment of, with phentolamine (Gould et al.), 189
- convulsive syncope resulting from, in case of congenital deafness with ECG abnormalities (van Bruggen, Sebus, and van Heyst), 81

Arrhythmia(s)—Cont'd

- supraventricular, and conduction disturbances, cardiotoxic effects of Mellaril (Fletcher, Kazamias, and Wenger), 135 (Annot.)
- See also under atrial mechanism, chaotic.
- Arterial flow, intercoronary, nature of, in normal heart (Hammond, Juca, and Austen), 559
- Artery (ies), calcinosis of, with coronary calcification in infancy (Beuren et al.), 87
- coronary, single, origin of, from pulmonary artery (Ogden), 251
- pulmonary, and branches, stenosis of, perfusion and ventilation radioisotope lung scans in (Stjernholm et al.), 37
- Arteriosus, pseudotruncus (Garcia, Cargill, and Drake), 537
- Atherogenesis, cigarettes, alcohol, and hospitals (Sackett), 423 (Annot.)
- Atresia, tricuspid, malformations associated with, electrocardiographic diagnosis of: Correlation with morphologic features (Guller, Titus, and DuShane), 180
- Atrial flutter, simulation of, by rapid coronary sinus pacing (Rosen, Lau, and Damato), 635
- sounds: case report (Dolara and Tordini), 369
- gallop, diagnostic value of, in acute myocardial infarction (Hill et al.), 194
- mechanism, chaotic (Phillips, Spano, and Burch), 171
- myxoma, calcified: Diagnostic significance of the "systolic tumor sound" in case presenting as tricuspid insufficiency (Martin, Hufnagel, and de Leon), 245
- right, enlargement, idiopathic, in childhood (Eshaghpour, Olley, and Collins), 373
- septal defect, children with, diagnostic value of first heart sound in (Sanchez et al.), 467
- first heart sound in (Zakrzewski, Slodki, and Luisada), 476
- relation of shunt flow and right ventricular pressure to heart valve structure in (Okada, Glagov, and Lev), 781
- septum and pulmonary vein, study of development of, in 83 human embryos: cor triatriatum (Van Praagh and Corsini), 379
- size, left, estimation of, using ultrasound (Hirata et al.), 43
- thrombi, left, detection of (Spar et al.), 731
- Atrioventricular conduction defects in acute myocardial infarction, natural history of (Brown, Hunt, and Sloman), 460
- pacing, ventricular and sequential, hemodynamic effects of, comparison of, in patients with heart block (Leinbach et al.), 502
- Atropine in treatment of cardiac disease (Cooper and Frieden), 124

B

- Bantu cardiomyopathy, ventricular dynamics in (Chambers, Beck, and Schrire), 493
- Beta-blocking agents and quinidine, effects of interaction of, on some cardiodynamic and hemodynamic parameters of normal individuals (Visioli et al.), 217

*July, pp. 1-144; August, pp. 145-288; September, pp. 289-432; October, pp. 433-580; November, pp. 581-724; December, pp. 725-864.

- Bidirectional tachycardia, mechanism of (Rosenbaum, Elizari, and Lazzari), 4
- Bipolar exercise and Frank electrocardiograms, computed ST forces of (Hornsten and Bruce), 346
- Block(s), bundle branch, left prolongation of isovolumic contraction time in (Adolph, Fowler, and Tanaka), 585
- right, with intermittent left anterior and posterior hemiblock, syndrome of. Intraventricular trifascicular blocks (Rosenbaum et al.), 306
- heart, patients with, ventricular and sequential A-V pacing in, hemodynamic effects of, comparison of (Leinbach et al.), 502
- intraventricular trifascicular. Review and classification (Rosenbaum et al.), 450
- Blood flow, cerebral, of dogs, effects of acetazolamide on, during hyperbaric oxygenation (Kong et al.), 229
- coronary sinus, pulsatile aspects of, in closed-chest dogs (Stein et al.), 331
- muscle, in normal and hypertensive subjects (Amery, Bossaert, and Verstraete), 211
- Book reviews, 142, 287, 430, 579, 723, 844
- Bradykinin, effects of, on the pulmonary vascular bed of intact dog (DePasquale et al.), 802
- Brain damage and death, criteria of, and posthyperventilation apnea (Brandfonbrener, Kroll, and Borden), 573 (Annot.)
- lesions, myocardial damage secondary to (Connor), 145
- Bundle branch block, left, prolongation of isovolumic contraction time in (Adolph, Fowler, and Tanaka), 585
- right, with intermittent left anterior and posterior hemiblock, syndrome of. Intraventricular trifascicular blocks (Rosenbaum et al.), 306
- C**
- Calcification, coronary, with calcinosis of the arteries in infancy (Beuren et al.), 87
- dystrophic, of myocardium as conditioning factor in genesis of congestive heart failure (Bajusz), 202
- Calcified atrial myxoma: Diagnostic significance of the "systolic tumor sound" in case presenting as tricuspid insufficiency (Martin, Hufnagel, and de Leon), 245
- Calcinosis of the arteries with coronary calcification in infancy (Beuren et al.), 87
- Calcium metabolism and maintenance hemodialysis (Wing), 836 (Annot.)
- Cardiac arrest, patients resuscitated after, long-term prognosis for (Dupont, Flensted-Jensen, and Sandøe), 444
- arrhythmias, treatment of, with phentolamine (Gould et al.), 189
- aortic flow velocity in man during, measured with the Doppler catheter-flowmeter system (Benchimol et al.), 649
- catheterization, risks of (Conti and Ross), 289
- disease, atropine in treatment of (Cooper and Frieden), 124
- invalid, there is such an entity as (Burch and DePasquale), 426 (Annot.)
- pacemaker; effects of regularly spaced nervous input (Reid), 58
- transvenous, mural thrombosis, and pulmonary embolism (Reynolds et al.), 688
- pacing, artificial, treatment of tachyarrhythmias by (Escher), 829
- rate, "ideal," (Burch and Giles), 574 (Annot.)

Cardiac—Cont'd

- and peripheral vascular effects of digitalis in clinical cardiogenic shock (Cohn, Tristani, and Khatri), 318
- and respiratory effects on venous return (Abel and Waldhausen), 266
- surgery, use of amiloride in potassium depletion before (Singh, Hurley, and North), 22
- Cardiodynamic and hemodynamic parameters of normal individuals, effects of interaction of quinidine and beta-blocking agents on (Visioli et al.), 217
- Cardiogenic shock, clinical, cardiac and peripheral vascular effects of digitalis in (Cohn, Tristani, and Khatri), 318
- glucagon in (Puri and Bing), 660
- Cardiomyopathy, Bantu, ventricular dynamics in (Chambers, Beck, and Schrire), 493
- Cardiopulmonary bypass, hemodilution, absolute: Free water distribution and protein mobilization in body compartments (Gollub et al.), 626
- resuscitation, I (Grossman and Rubin), 569
- II (Grossman and Rubin), 709
- Cardiotoxic effects of Mellaril: Conduction disturbances and supraventricular arrhythmias (Fletcher, Kazamias, and Wenger), 135 (Annot.)
- Cardiovascular complications in young patients taking psychotropic drugs (Alexander and Niño), 757
- response of hypoxic myocardium to acetyl strophanthidin (Donlon and Yu), 238
- Catheter-flowmeter system, Doppler, aortic flow velocity in man during cardiac arrhythmias measured with (Benchimol et al.), 649
- pacemaker, fractured intracardiac transvenous (Pappas, Shoultz, and Blount), 807
- Catheterization, cardiac, risks of (Conti and Ross), 289
- Cerebral blood flow of dogs, effects of acetazolamide on, during hyperbaric oxygenation (Kong et al.), 229
- Childhood, idiopathic right atrial enlargement in (Eshaghpour, Olley, and Collins), 373
- Children with atrial septal defect, diagnostic value of first heart sound in (Sanchez et al.), 467
- with congenital heart disease, growth hormone levels in (Bacon et al.), 280 (Annot.)
- with ventricular septal defects, relation of hemodynamics to height and weight percentiles in (Miller et al.), 523
- Cigarettes, alcohol, hospitals, and atherogenesis (Sackett), 423 (Annot.)
- Clinical pathologic conference (Ewy et al.), 259
- (Pollak et al.), 545
- (Weatherall et al.), 816
- Coarctation, aortic, abdominal, crural hypertension in (Annamalai and Shreekrumar), 541
- Collateral capacity, myocardial, increase in, following drug-induced coronary vasodilatation (Rees and Redding), 224
- Conduction, defects, atrioventricular, in acute myocardial infarction, natural history of (Brown, Hunt, and Sloman), 460
- disturbances and supraventricular arrhythmias: cardiotoxic effects of Mellaril (Fletcher, Kazamias, and Wenger), 135 (Annot.)
- Congenital aortic stenosis, sudden death in (Glew et al.), 615
- deafness with ECG abnormalities, convulsive syncope resulting from arrhythmia in case of (van Bruggen, Sebus, and van Heyst), 81
- heart defects and paralysis of the facial nerve (Strong and Silbert), 279 (Annot.)

- Congenital heart—Cont'd
 disease, children with, growth hormone levels in (Bacon et al.), 280 (Annot.)
- Congestive heart failure, genesis of, dystrophic calcification of myocardium as conditioning factor in (Bajusz), 202
- Contractility, myocardial, and hemodynamics, effects of glucagon on, in acute experimental myocardial infarction. Basis for its possible use in cardiogenic shock (Puri and Bing), 660
- Coronary artery, single, origin of, from pulmonary artery (Ogden), 251
 attack; concepts on etiology and hemodynamic management (Lamont and Posel), 480
 calcification with calcinosis of the arteries in infancy (Beuren et al.), 87
 care unit, detection and treatment of anxiety in (Hackett, Cassem, and Wishnie), 727
 embolism in primary myocardial disease (Parameswaran, Meadows, and Sharp), 682
 heart disease, first diagnosis of, survival following (Zukel et al.), 159
 sinus blood flow, pulsatile aspects of, in closed-chest dogs (Stein et al.), 331
 pacing, rapid, simulation of atrial flutter by (Rosen, Lau, and Damato), 635
 vasodilatation, drug-induced, increase in myocardial collateral capacity following (Rees and Redding), 224
- Cor triatriatum: pathologic anatomy and morphogenesis based on 13 postmortem cases (Van Praagh and Corsini), 379
- Countercurrent mechanisms, renal; structure and function (Kriz and Lever), 101
- Crural hypertension in abdominal aortic coarctation (Annamalai and Shreekumar), 541
- D
- Deafness, congenital, with ECG abnormalities, convulsive syncope resulting from arrhythmia in case of (van Bruggen, Sebus, and van Heyst), 81
- Death(s) and brain damage, criteria of, and posthyperventilation apnea (Brandfonbrener, Kroll, and Borden), 573 (Annot.)
 late, prevention of, after myocardial infarction (Lovell), 1
 sudden, in congenital aortic stenosis (Glew et al.), 615
- Deletion and potentiation, alternate, as cause of pulsus alternans (Gunderoth et al.), 669
- Digitalis, cardiac and peripheral vascular effects of, in clinical cardiogenic shock (Cohn, Tristani, and Khatri), 318
- Digitoxin, action of, on elderly women, blind study on (Starr and Luchi), 740
- Dipyridamole-induced coronary vasodilatation, increase in myocardial collateral capacity following (Rees and Redding), 224
- Dissections of the thoracic aorta, acute, management of (Harris, Bowman, and Malm), 419
- Dog(s), cerebral blood flow of, effects of acetazolamide on, during hyperbaric oxygenation (Kong et al.), 229
 closed-chest, pulsatile aspects of coronary sinus blood flow in (Stein et al.), 331
 intact, effects of bradykinin on pulmonary vascular bed of (DePasquale et al.), 802
 hemodynamic alterations produced by prolonged urethane anesthesia in (Giles, Quiroz, and Burch), 281 (Annot.)
- Doppler catheter flowmeter system, aortic flow velocity in man during cardiac arrhythmias measured with (Benchimol et al.), 649
- Drainage, pulmonary venous, anomalous, associated with mitral valve disease (Bruschke and Bloch), 437
- Drug-induced coronary vasodilatation, increase in myocardial collateral capacity following (Rees and Redding), 224
 therapy, hypotensive, in management of hypertension, (Pomerantz), 433
- Dye dilution curve (See under fore-n-aft triangle formula).
- Dystrophic calcification of myocardium as conditioning factor in genesis of congestive heart failure (Bajusz), 202
- E
- Echocardiogram in case of mitral stenosis before and after surgery (Silver, Rodriguez-Torres, and Newfeld), 811
- Edema, pulmonary, QRS changes, and myocardial necrosis associated with subarachnoid hemorrhage (Hammermeister and Reichenbach), 94
- Elderly women, action of digitoxin on, blind study on (Starr and Luchi), 740
- Electrocardiograms, Frank and bipolar exercise, computed ST forces of (Hornsten and Bruce), 346
- Electrocardiographic abnormalities with congenital deafness, convulsive syncope resulting from arrhythmia in case of (van Bruggen, Sebus, and van Heyst), 81
 diagnosis of malformations associated with tricuspid atresia: Correlation with morphologic features (Guller, Titus, and DuShane), 180
 potential distributions in newborn infants from 12 hours to 8 days after birth (Tazawa and Yoshimoto), 292
 radio-, monitoring, continuous, of football and basketball coaches during games (Gazes, Sovell, and Dellastatious), 509
- Embolism, coronary, in primary myocardial disease (Parameswaran, Meadows, and Sharp), 682
 pulmonary, mural thrombosis, and transvenous cardiac pacemaker (Reynolds et al.), 688
- Embryos, human, 83, development of pulmonary vein and atrial septum in, study of; cor triatriatum (Van Praagh and Corsini), 379
- Estrogens and puerperal thromboembolism (Daniel), 720 (Annot.)
- Ethanol, acute hemodynamic effects of, on normal human volunteers (Riff, Jain, and Doyle), 592
 effect of, on metabolism and function of perfused rat heart (Lochner, Cowley, and Brink), 770
- Ethyl alcohol, hemodynamic effects of, in man (Juchems and Klobe), 133 (Annot.)
- Etiology and hemodynamic management of the coronary attack (Lamont and Posel), 480
- Exercise test, false positive, in presence of Wolff-Parkinson-White syndrome (Gazes), 13
- F
- Facial nerve, paralysis of, and congenital heart defects (Strong and Silbert), 279 (Annot.)
- Familial dissecting aneurysm complicating Marfan's syndrome (Young), 577 (Annot.)
 occurrence of Wolff-Parkinson-White syndrome (Schneider), 34
- Family, 11 members of, prolapse of posterior leaflet of mitral valve occurring in (Hunt and Sloman), 149
- Fibrillation, ventricular, in acute myocardial infarction (Lawrie), 424 (Annot.)

- First heart sound in atrial septal defect (Zakrzewski, Slodki, and Luisada), 476
 diagnostic value of, in children with atrial septal defect (Sanchez et al.), 467
- Flow, aortic, velocity in man during cardiac arrhythmias measured with the Doppler catheter-flowmeter system (Benchimol et al.), 649
 arterial, intercoronary, nature of, in normal heart (Hammond, Juca, and Austen), 559
 blood, cerebral, of dogs, effects of acetazolamide on, during hyperbaric oxygenation (Kong et al.), 229
 muscle, in normal and hypertensive subjects (Amery, Bossaert, and Verstraete), 211
 detection, transcutaneous directional; a preliminary report (Strandness et al.), 65
 shunt, and right ventricular pressure, relation of, to heart valve structure in atrial septal defect (Okada, Glagov, and Lev), 781
- Flowmeter-catheter system, Doppler, aortic flow velocity in man during cardiac arrhythmias measured with (Benchimol et al.), 649
- Flutter, atrial, simulation of, by rapid coronary sinus pacing (Rosen, Lau, and Damato), 635
 sounds: case report (Dolara and Tordini), 369
- Fore-n-aft triangle formula for rapid estimation of area (Bradley and Barr), 643
- Frank and bipolar exercise electrocardiograms, computed ST forces of (Hornsten and Bruce), 346
- G
- Gallop, atrial, diagnostic value of, in acute myocardial infarction (Hill et al.), 194
 rhythm (Shah and Yu), 823
- Geriatric cardiology (Burch and DePasquale), 700
- Glucagon, effects of, on myocardial contractility and hemodynamics in acute experimental myocardial infarction. Basis for its possible use in cardiogenic shock (Puri and Bing), 660
- Growth hormone levels in children with congenital heart disease (Bacon et al.), 280 (Annot.)
- H
- Heart block, patients with, ventricular and sequential A-V pacing in, hemodynamic effects of, comparison of (Leinbach et al.), 502
 defects, congenital, and paralysis of the facial nerve (Strong and Silbert), 279 (Annot.)
 disease, congenital, children with, growth hormone levels in (Bacon et al.), 280 (Annot.)
 coronary, diagnosis of, survival following (Zukel et al.), 159
 failure, congestive, genesis of, dystrophic calcification of myocardium as conditioning factor in (Bajusz), 202
 human, re-evaluation of septal activation in (Castellanos and Lemberg), 575 (Annot.)
 intercalated disc of, morphologic and pathologic aspects of (Burch and Sohal), 358
 normal, nature of intercoronary arterial flow in (Hammond, Juca, and Austen), 559
 primary angiosarcoma of, treatment of (Hollingsworth and Sturgill), 254
 rat, perfused, metabolism and function of, effect of ethanol on (Lochner, Cowley, and Brink), 770
 size and ten-year survival after uncomplicated myocardial infarction (Shanoff et al.), 608
 sound, first, in atrial septal defect (Zakrzewski, Slodki, and Luisada), 476
 diagnostic value of, in children with atrial septal defect, (Sanchez et al.), 467
- Heart—Cont'd
 transplant, rejecting, dilemma of (Dempster), 581
 valve structure in atrial septal defect, relation of shunt flow and right ventricular pressure to (Okada, Glagov, and Lev), 781
- Height and weight percentiles, relation of hemodynamics to, in children with ventricular septal defects (Miller et al.), 523
- Hemodialysis, maintenance, and calcium metabolism (Wing), 836 (Annot.)
- Hemodilution cardiopulmonary bypass, absolute: free water distribution and protein mobilization in body compartments (Gollub et al.), 626
- Hemodynamic(s) alterations in acute myocardial infarction with shock (Fantini and Scarpelli), 834 (Annot.)
 produced by prolonged urethane anesthesia in the intact dog (Giles, Quiroz, and Burch), 281 (Annot.)
 and cardiodynamic parameters of normal individuals, effects of interaction of quinidine and beta-blocking agents on (Visioli et al.), 217
 clinical, and surgical considerations of rupture of the ventricular septum after myocardial infarction (Selzer, Gerbode, and Kerth), 598
 effects, acute, of ethanol on normal human volunteers (Riff, Jain, and Doyle), 592
 of ethyl alcohol in man (Juchems and Klobe), 133 (Annot.)
 of ventricular and sequential A-V pacing, comparison of, in patients with heart block (Leinbach et al.), 502
 management and etiology of the coronary attack (Lamont and Posel), 480
 and myocardial contractility, effects of glucagon on, in acute experimental myocardial infarction; basis for its possible use in cardiogenic shock (Puri and Bing), 660
 relation of, to height and weight percentiles in children with ventricular septal defects (Miller et al.), 523
- Hemorrhage, subarachnoid, QRS changes, pulmonary edema, and myocardial necrosis associated with (Hammermeister and Reichenbach), 94
- Heparin therapy, rapid bedside method for control of (Wing), 838 (Annot.)
- Hepatic dysfunction associated with renal transplantation (Millard, Herbertson, and Evans), 717 (Annot.)
- Hormone levels, growth, in children with congenital heart disease (Bacon et al.), 280 (Annot.)
- Hydrogen ion and pulmonary vasomotricity (Ferrer, Enson, and Harvey), 692
- Hyperbaric oxygenation, effects of acetazolamide on cerebral blood flow of dogs during (Kong et al.), 229
- Hypertension, crural, in abdominal aortic coarctation (Annamalai and Shreekrumar), 541
 management of, with hypotensive drug therapy (Pomerantz), 433
- Hypertensive and normal subjects, muscle blood flow in (Amery, Bossaert, and Verstraete), 211
- Hyperventilation, post-, apnea and criteria of brain damage and death (Brandfonbrner, Kroll, and Borden), 573 (Annot.)
- Hypotension, orthostatic, treatment of, and pathophysiology (Shear), 715 (Annot.)
- Hypotensive drug therapy in management of hypertension (Pomerantz), 433
- Hypoxic myocardium, cardiovascular response of, to acetyl strophanthidin (Donlon and Yu), 238

I

- Infancy, calcinosis of the arteries with coronary calcification in (Beuren et al.), 87
- Infants, newborn, electrocardiographic potential distributions in, from 12 hours to 8 days after birth (Tazawa and Yoshimoto), 292
- Infarction, myocardial, acute, assessment of the immediate prognosis during (Kurien and Oliver), 718 (Annot.)
- atrioventricular conduction defects in, natural history of (Brown, Hunt, and Sloman), 460
- diagnostic value of atrial gallop in (Hill et al.), 194
- experimental, effects of glucagon on myocardial contractility and hemodynamics in. Basis for its possible use in cardiogenic shock (Puri and Bing), 660
- with shock, hemodynamic alterations in (Fantini and Scarpelli), 834 (Annot.)
- ventricular fibrillation in (Lawrie), 424 (Annot.)
- clinical, hemodynamic, and surgical considerations of rupture of ventricular septum after (Selzer, Gerbode, and Kerth), 598
- prevention of late deaths after (Lovell), 1
- uncomplicated, heart size and ten-year survival after (Shanoff et al.), 608
- Insufficiency, mitral, "rheumatic," severe, clinical course of patients with (Ellis and Ramirez), 406
- tricuspid, case presenting as, diagnostic significance of the "systolic tumor sound" in: calcified atrial myxoma (Martin, Hufnagel, and de Leon), 245
- Intercalated disc of heart, morphologic and pathologic aspects of (Burch and Sohal), 358
- Intercoronary arterial flow, nature of, in normal heart (Hammond, Juca, and Austen), 559
- Intracardiac transvenous pacemaker catheter, fractured (Pappas, Shoults, and Blount), 807
- Intraventricular trifascicular blocks. Review and classification (Rosenbaum et al.), 450
- The syndrome of right bundle branch block with intermittent left anterior and posterior hemiblock (Rosenbaum et al.), 306
- Invalid, cardiac, there is such an entity as (Burch and DePasquale), 426 (Annot.)
- Ion, hydrogen, and pulmonary vasomotricity (Ferrer, Enson, and Harvey), 692
- Isovolumic contraction time, prolongation of, in left bundle branch block (Adolph, Fowler, and Tanaka), 585

L

- Lead(s), precordial, right, vectorcardiographic analysis of T-wave inversion in (Chou, Co, and Helm), 75
- Z, highly corrected, further considerations in design of (Brody, Demetriou, and Hight), 129 (Annot.)
- Left atrial size, estimation of, using ultrasound (Hirata et al.), 43
- thrombi, detection of (Spar et al.), 731
- bundle branch block, prolongation of isovolumic contraction time in (Adolph, Fowler, and Tanaka), 585
- ventricular aneurysm, mitral subannular, idiopathic, in the Bantu (Beck and Schrire), 28
- wall thickness, determination of, by angiocardigraphy (Hugenholtz, Kaplan, and Hull), 513
- Legal aspects of human organ transplantation (Castel), 130 (Annot.)
- Letters to Editor, 139, 285, 429, 841

- Lignocaine, effect of, on myocardial function, high energy phosphate stores, and oxygen consumption: comparison with propranolol (Nayler et al.), 338
- Lung scans, perfusion and ventilation radioisotope, in stenosis of pulmonary arteries and branches (Stjernholm et al.), 37

M

- Marfan's syndrome, familial dissecting aneurysm complicating (Young), 577 (Annot.)
- Masking, backward (Brandfonbrener), 833 (Annot.)
- Mellari, cardiotoxic effects of: Conduction disturbances and supraventricular arrhythmias (Fletcher, Kazamias, and Wenger), 135 (Annot.)
- Metabolism, calcium, and maintenance hemodialysis (Wing), 836 (Annot.)
- and function of perfused rat heart, effect of ethanol on (Lochner, Cowley, and Brink), 770
- Mitral insufficiency, "rheumatic," severe, clinical course of patients with (Ellis and Ramirez), 406
- stenosis, echocardiogram in case of, before and after surgery (Silver, Rodriguez-Torres, and Newfeld), 811
- subannular left ventricular aneurysm, idiopathic, in the Bantu (Beck and Schrire), 28
- valve disease, anomalous pulmonary venous drainage associated with (Bruschke and Bloch), 437
- posterior leaflet of, prolapse of, occurring in 11 members of a family (Hunt and Sloman), 149
- Morphogenesis and pathologic anatomy of 13 cases of cor triatriatum (Van Praagh and Corsini), 379
- Morphologic features correlated with electrocardiographic diagnosis of malformations associated with tricuspid atresia (Guller, Titus, and DuShane), 180
- and pathologic aspects of intercalated disc of the heart (Burch and Sohal), 358
- Mural thrombosis, pulmonary embolism, and transvenous cardiac pacemaker (Reynolds et al.), 688
- Muscle blood flow in normal and hypertensive subjects (Amery, Bossaert, and Verstraete), 211
- Myocardial collateral capacity, increase in, following drug-induced coronary vasodilatation (Rees and Redding), 224
- contractility and hemodynamics, effects of glucagon on, in acute experimental myocardial infarction. Basis for its possible use in cardiogenic shock (Puri and Bing), 660
- damage secondary to brain lesions (Connor), 145
- disease, primary, coronary embolism in (Parameswaran, Meadows, and Sharp), 682
- function, high energy phosphate stores, and oxygen consumption, effect of lignocaine on, comparison with propranolol (Nayler et al.), 338
- phonocardiographic assessment of, in the aged (Friedman and Davison), 752
- infarction, acute, assessment of the immediate prognosis during (Kurien and Oliver), 718 (Annot.)
- atrioventricular conduction defects in, natural history of (Brown, Hunt, and Sloman), 460
- diagnostic value of atrial gallop in (Hill et al.), 194

- Myocardial infarction, acute—Cont'd
 with shock, hemodynamic alterations in (Fantini and Scarpelli), 834 (Annot.)
 ventricular fibrillation in (Lawrie), 424 (Annot.)
 clinical, hemodynamic, and surgical considerations of rupture of ventricular septum after (Selzer, Gerbode, and Kerth), 598
 prevention of late deaths after (Lovell), 1
 uncomplicated, heart size and ten-year survival after (Shanoff et al.), 608
 necrosis, QRS changes, and pulmonary edema associated with subarachnoid hemorrhage (Hammermeister and Reichenbach), 94
- Myocardium, dystrophic calcification of, as conditioning factor in genesis of congestive heart failure (Bajusz), 202
 hypoxic, cardiovascular response of, to acetyl strophanthidin (Donlon and Yu), 239
- Myxoma, atrial, calcified: Diagnostic significance of the "systolic tumor sound" in case presenting as tricuspid insufficiency (Martin, Hufnagel, and de Leon), 245
- N
- Necrosis, myocardial, QRS changes, and pulmonary edema associated with subarachnoid hemorrhage (Hammermeister and Reichenbach), 94
- Nerve, facial, paralysis of, and congenital heart defects (Strong and Silbert), 279 (Annot.)
- Neurologic grading system for acute strokes (Tuthill, Pozen, and Kennedy), 53
- O
- Obituary: Robert Hebard Bayley, 846
- Organ transplantation, human, legal aspects of (Castel), 130 (Annot.)
- Orthostatic hypotension, treatment of, and pathophysiology (Shear), 715 (Annot.)
- Oxygen consumption, high energy phosphate stores, and myocardial function, effect of lignocaine on: comparison with propranolol (Nayler et al.), 338
- Oxygenation, hyperbaric, effects of acetazolamide on cerebral blood flow of dogs during (Kong et al.), 229
- P
- Pacemaker (Atracor) malfunction, complex synchronized (Neal and Falicov), 154
 cardiac; effects of regularly spaced nervous input (Reid), 58
 catheter, intracardiac transvenous, fractured (Pappas, Shoults, and Blount), 807
 transvenous cardiac, mural thrombosis, and and pulmonary embolism (Reynolds et al.), 688
- Pacing, A-V, ventricular and sequential, hemodynamic effects of, comparison of, in patients with heart block (Leinbach et al.), 502
 cardiac, artificial, treatment of tachyarrhythmias by (Escher), 829
 rate, "ideal" (Burch and Giles), 574 (Annot.)
 coronary sinus, rapid, simulation of atrial flutter by (Rosen, Lau, and Damato), 635
- Paralysis of the facial nerve and congenital heart defects (Strong and Silbert), 279 (Annot.)
- Pathophysiology and treatment of orthostatic hypotension (Shear), 715 (Annot.)
- Perfusion and ventilation radioisotope lung scans in stenosis of pulmonary arteries and branches (Stjernholm et al.), 37
- Phentolamine (Gould), 276
 treatment of cardiac arrhythmias with (Gould et al.), 189
- Phonocardiographic assessment of myocardial function in the aged (Friedman and Davison), 752
- Phosphate stores, high energy, oxygen consumption, and myocardial function, effect of lignocaine on; comparison with propranolol (Nayler et al.), 338
- Potassium depletion, use of amiloride in, before cardiac surgery (Singh, Hurley, and North), 22
 loss with thiazide therapy (Maronde, Milgrom, and Dickey), 16
- Potential and deletion, alternate, as cause of pulsus alternans (Gunderoth et al.), 669
- Precordial leads, right, vectorcardiographic analysis of T-wave inversion in (Chou, Co, and Helm), 75
- Pressure, right ventricular, and shunt flow, relation of, to heart valve structure in atrial septal defect (Okada, Glagov, and Lev), 781
- Procainamide administration, agranulocytosis following (Wang and Schuller), 282 (Annot.)
- Propranolol compared with lignocaine: effects on myocardial function, high energy phosphate stores, and oxygen consumption (Nayler et al.), 338
- Protein mobilization and free water distribution in body compartments: absolute hemodilution and cardiopulmonary bypass (Gollub et al.), 626
- Psychotropic drugs, young patients taking, cardiovascular complications in (Alexander and Niño), 757
- Puerperal thromboembolism and estrogens (Daniel), 720 (Annot.)
- Pulmonary artery (ies) and branches stenosis of, perfusion and ventilation radioisotope lung scans in (Stjernholm et al.), 37
 single coronary artery originating from (Ogden), 251
 edema, QRS changes and myocardial necrosis associated with subarachnoid hemorrhage (Hammermeister and Reichenbach), 94
 embolism, mural thrombosis, and transvenous cardiac pacemaker (Reynolds et al.), 688
 vascular bed of intact dog, effects of bradykinin on (DePasquale et al.), 802
- Pulmonary vasomotricity, and the hydrogen ion (Ferrer, Enson, and Harvey), 692
 vein and atrial septum, study of development of, in 83 human embryos: cor triatriatum (Van Praagh and Corsini), 379
 venous drainage, anomalous, associated with mitral valve disease (Bruschke and Bloch), 433
- Pulmonic stenosis and single ventricle with normal relationship with the great vessels (Klaus et al.), 530
- Pulsatile aspects of coronary sinus blood flow in closed-chest dogs (Stein et al.), 331
- Pulsus alternans, alternate deletion and potentiation as cause of (Gunderoth et al.), 669
- Pseudotruncus arteriosus (Garcia, Cargill, and Drake), 537
- Pyelonephritis and renal scars (Rabson), 428 (Annot.)
- Q
- QRS changes, pulmonary edema, and myocardial necrosis associated with subarachnoid hemorrhage (Hammermeister and Reichenbach), 94
- QRS-T area. (See under ventricular gradient.)
- Quinidine and beta-blocking agents, effects of interaction of, on some cardiodynamic and hemodynamic parameters of normal individuals (Visioli et al.), 217

R

- Radioelectrocardiographic monitoring, continuous, of football and basketball coaches during games (Gazes, Sovell, and Dellastatious), 509
- Radioisotope, perfusion and ventilation, lung scans in stenosis of the pulmonary arteries and branches (Stjernholm et al.), 37
- Rat heart, perfused, metabolism and function of, effect of ethanol on (Lochner, Cowley, and Brink), 770
- Rejecting heart transplant, dilemma of (Dempster), 581
- Renal countercurrent mechanisms; structure and function (Kriz and Lever), 101
 - scars and pyelonephritis (Rabson), 428 (Annot.)
 - transplantation, hepatic dysfunction associated with (Millard, Herbertson, and Evans), 717 (Annot.)
- Respiratory and cardiac effects on venous return (Abel and Waldhausen), 266
- Resuscitation after cardiac arrest, long-term prognosis for patients following (Dupont, Flensted-Jensen, and Sandøe), 444
 - cardiopulmonary, I (Grossman and Rubin), 569
 - II (Grossman and Rubin), 709
- Rheumatic mitral insufficiency, severe, clinical course of patients with (Ellis and Ramirez), 406
- Right atrial enlargement, idiopathic, in childhood (Eshaghpour, Olley, and Collins), 373
 - bundle branch block with intermittent left anterior and posterior hemiblock, syndrome of, Intraventricular trifascicular blocks (Rosenbaum et al.), 306
 - precordial leads, vectorcardiographic analysis of T-wave inversion in (Chou, Co, and Helm), 75
 - ventricular pressure and shunt flow, relation of, to heart valve structure in atrial septal defect (Okada, Glagov, and Lev), 781
- Rhythm, gallop (Shah and Yu), 823

S

- Scans, lung, perfusion and ventilation radioisotope, in stenosis of pulmonary arteries and branches (Stjernholm et al.), 37
 - scintillation; detection of left atrial thromb (Spar et al.), 731
- Septal activation in human heart, re-evaluation of (Castellanos and Lemberg), 575 (Annot.)
 - defect, atrial, children with, diagnostic value of first heart sound in (Sanchez et al.), 467
 - first heart sound in (Zakrzewski, Slodki, and Luisada), 476
 - relation of shunt flow and right ventricular pressure to heart valve structure in (Okada, Glagov, and Lev), 781
 - ventricular, children with, relation of hemodynamics to height and weight percentiles in (Miller et al.), 523
- Septum, atrial, and pulmonary vein in 83 human embryos, study of development of; cor triatriatum (Van Praagh and Corsini), 379
 - ventricular, rupture of, clinical, hemodynamic, and surgical considerations of, after myocardial infarction (Selzer, Gerbode, and Kerth), 598
- Shock, acute myocardial infarction with, hemodynamic alterations in (Fantini and Scarpelli), 834 (Annot.)
 - cardiogenic, clinical, cardiac and peripheral vascular effects of digitalis (Cohn, Tristani, and Khatri), 318
 - glucagon in (Puri and Bing), 660
- Shunt flow and right ventricular pressure, relation of, to heart valve structure in atrial septal defect (Okada, Glagov, and Lev), 781
- Single coronary artery, origin of, from pulmonary artery (Ogden), 251
- Sinus, coronary, blood flow, pulsatile aspects of, in closed-chest dogs (Stein et al.), 331
 - pacing, rapid, simulation of atrial flutter by (Rosen, Lau, and Damato), 635
- Size, heart, and ten-year survival after uncomplicated myocardial infarction (Shanoff et al.), 608
- Sound(s), atrial flutter: case report (Dolara and Tordini), 369
 - heart, first, in atrial septal defect (Zakrzewski, Slodki, and Luisada), 476
 - diagnostic value of, in children with atrial septal defect (Sanchez et al.), 467
 - tumor, systolic, diagnostic significance of, in case presenting as tricuspid insufficiency; calcified atrial myxoma (Martin, Hufnagel, and de Leon), 245
- Sports. *See* under radioelectrocardiographic.
- Stenosis, aortic, congenital, sudden death in (Glew et al.), 615
 - mitral, echocardiogram in case of, before and after surgery (Silver, Rodriguez-Torres, and Newfeld), 811
 - of pulmonary arteries and branches, perfusion and ventilation radioisotope lung scans in (Stjernholm et al.), 37
 - pulmonic, and single ventricle with normal relationship with the great vessels (Klaus et al.), 530
- ST forces, computed, of Frank and bipolar exercise electrocardiograms (Hornsten and Bruce), 346
- Strokes, acute, neurologic grading system for (Tuthill, Pozen, and Kennedy), 53
- Strophanthidin, acetyl, cardiovascular response of hypoxic myocardium to (Donlon and Yu), 238
- Subannular left ventricular aneurysm, mitral, idiopathic, in the Bantu (Beck and Schrire), 28
- Subarachnoid hemorrhage, QRS changes, pulmonary edema, and myocardial necrosis associated with (Hammermeister and Reichenbach), 94
- Supraventricular arrhythmias and conduction disturbances: cardiotoxic effects of Mellaril (Fletcher, Kazamias, and Wenger), 135 (Annot.)
- Surgery, cardiac, use of amiloride in potassium depletion before (Singh, Hurley, and North), 22
 - echocardiogram in case of mitral stenosis before and after (Silver, Rodriguez-Torres, and Newfeld), 811
- Surgical, clinical, and hemodynamic considerations of rupture of the ventricular septum after myocardial infarction (Selzer, Gerbode, and Kerth), 598
- Survival, ten-year, and heart size after uncomplicated myocardial infarction (Shanoff et al.), 608
- Syncope, convulsive, resulting from arrhythmia in case of congenital deafness with ECG abnormalities (van Bruggen, Sebus, and van Heyst), 81
- "Systolic tumor sound," diagnostic significance of, in case presenting as tricuspid insufficiency: calcified atrial myxoma (Martin, Hufnagel, and de Leon), 245

T

- Tachyarrhythmias, treatment of, by artificial cardiac pacing (Escher), 829
- Tachycardia, bidirectional, mechanism of (Rosenbaum, Elizari, and Lazzari), 4
- Thiazide therapy, potassium loss with (Maronde, Milgrom, and Dickey), 16
- Thoracic aorta, acute dissections of, management of (Harris, Bowman, and Malm), 419
- Thrombi, left atrial, detection of (Spar et al.), 731
- Thromboembolism, puerperal, and estrogens (Daniel), 720 (Annot.)
- Thrombosis, mural, pulmonary embolism, and transvenous cardiac pacemaker (Reynolds et al.), 688
- Transcutaneous directional flow detection; a preliminary report (Strandness et al.), 65
- Transplant, heart, rejecting, dilemma of (Dempster), 581
- Transplantation, organ, human, legal aspects of (Castel), 130 (Annot.)
- renal, hepatic dysfunction associated with (Millard, Herbertson, and Evans), 717 (Annot.)
- Transvenous cardiac pacemaker, mural thrombosis, and pulmonary embolism (Reynolds et al.), 688
- pacemaker catheter, intracardiac, fractured (Pappas, Shoults, and Blount), 807
- Triatriatum, cor: pathologic anatomy and morphogenesis based on 13 postmortem cases (Van Praagh and Corsini), 379
- Tricuspid atresia, malformations associated with, electrocardiographic diagnosis of: Correlation with morphologic features (Guller, Titus, and DuShane), 180
- insufficiency, case presenting as, diagnostic significance of the "systolic tumor sound" in: calcified atrial myxoma (Martin, Hufnagel, and de Leon), 245
- Trifascicular blocks, intraventricular. Review and classification (Rosenbaum et al.), 450
- The syndrome of right bundle branch block with intermittent left anterior and posterior hemiblock (Rosenbaum et al.), 306
- "Tumor sound, systolic," diagnostic significance of, in case presenting as tricuspid insufficiency: calcified atrial myxoma (Martin, Hufnagel, and de Leon), 245
- T-wave inversion in right precordial leads, vectorcardiographic analysis of (Chou, Co, and Helm), 75

U

- Ultrasound, estimation of left atrial size using (Hirata et al.), 43
- Urethane anesthesia, prolonged, hemodynamic alterations produced by, in the intact dog (Giles, Quiroz, and Burch), 281 (Annot.)

V

- Valve, heart, structure, in atrial septal defect, relation of shunt flow and right ventricular pressure to (Okada, Glagov, and Lev), 781
- mitral, disease, anomalous pulmonary venous drainage associated with (Bruschke and Bloch), 437
- posterior leaflet of, prolapse of, occurring in 11 members of family (Hunt and Sloman), 149
- Valvulitis, viral (Burch and Colcolough), 119
- Vascular bed, pulmonary, of intact dog, effects of bradykinin on (DePasquale et al.), 802
- peripheral, and cardiac effects of digitalis in clinical cardiogenic shock (Cohn, Tristani, and Khatri), 318

- Vasodilatation, coronary, drug-induced, increase in myocardial collateral capacity following (Rees and Redding), 224
- Vasomotricity, pulmonary, and the hydrogen ion (Ferrer, Enson, and Harvey), 692
- Vectorcardiographic analysis of T-wave inversion in the right precordial leads (Chou, Co, and Helm), 75
- Vein, pulmonary, and atrial septum in 83 human embryos, study of development of; cor triatriatum (Van Praagh and Corsini), 379
- Venous drainage, pulmonary, anomalous, associated with mitral valve disease (Bruschke and Bloch), 437
- return, respiratory and cardiac effects on (Abel and Waldhausen), 266
- Ventilation and perfusion radioisotope lung scans in stenosis of pulmonary arteries and branches (Stjernholm et al.), 37
- Ventricle, single, with normal relationship of the great vessels and pulmonic stenosis (Klaus et al.), 530
- Ventricular aneurysm, left, mitral subannular, idiopathic, in the Bantu (Beck and Schrire), 28
- dynamics in Bantu cardiomyopathy (Chambers, Beck, and Schrire), 493
- fibrillation in acute myocardial infarction (Lawrie), 424 (Annot.)
- gradient concept, observations concerning the validity of (Fruehan et al.), 796
- pressure, right, and shunt flow, relation of, to heart valve structure in atrial septal defect (Okada, Glagov, and Lev), 781
- septal defects, children with, relation of hemodynamics to height and weight percentiles in (Miller et al.), 523
- septum, rupture of, clinical, hemodynamic, and surgical considerations of, after myocardial infarction (Selzer, Gerbode, and Kerth), 598
- and sequential A-V pacing, hemodynamic effects of, comparison of, in patients with heart block (Leinbach et al.), 502
- wall thickness, left, determination of, by angiocardiology (Hugenoltz, Kaplan, and Hull), 513
- Vessels, great, normal relationship of, single ventricle with, and pulmonic stenosis (Klaus et al.), 530
- Viral valvulitis (Burch and Colcolough), 119

W

- Water, free, distribution and protein mobilization in body compartments: absolute hemodilution cardiopulmonary bypass (Gollub et al.), 626
- Wave, T-, in right precordial leads, vectorcardiographic analysis of (Chou, Co, and Helm), 75
- Weight and height percentiles, relation of hemodynamics to, in children with ventricular septal defects (Miller et al.), 523
- Wolf-Parkinson-White syndrome, false positive exercise test in presence of (Gazes), 13
- familial occurrence of (Schneider), 34

Y

- Young patients taking psychotropic drugs, cardiovascular complications in (Alexander and Niño), 757

Z

- Z lead, highly corrected, considerations in design of (Brody, Demetriou, and Hight), 129 (Annot.)
